

We met a Roman soldier and learnt about his life and his hatred towards Boudica's army.

We learnt about what the Roman's used to eat and had a go at making our own Roman meal using dates and apricots. We were even able to try what we made... which a few of us enjoyed.

We created our own Roman mosaics and learnt where they would go in Roman society.

We were able to look at, and handle, real life Roman objects and discuss what they were used for.

We tried different Roman games that children used to play, such as: throwing three dice to get the biggest total and throwing and catching.

We learnt about how Romans used to write and made our own ink. We then wrote using the ink and a quill... it was a bit smelly!

We learnt about the lives of Roman soldiers and practiced some Roman Drills.
