

Year 2 animal encounter experience

In year 2, we had the opportunity to meet a variety of different animals (Kasper the snake, Jarvis the cockroach, Honey the Gecko and Princess Katie the rat). We were able to either wave to, touch or hold the animals (some of us were brave enough to do all three!) and ask different questions. This session was linked to our new science topic 'Living things and their environment' and we discussed the perfect living environment for these animals and where we might find them in the world.
