glaze

Vocabulary/ Definitions

Clay

Stiff, sticky earth which can be formed when wet, and fired to make ceramics, bricks and pottery.

Ceramic Pottery

Made of clay and permanently hardened by heat
Pots, dishes, and other articles made of fired clay- can be broadly divided into earthenware, porcelain, and stoneware.

Kiln

A furnace or oven for firing, baking or drying clay.

Slip

Used for mixing components of clay or for fixing pieces of clay together.

Wheel

a machine used in the shaping (known as throwing) of round ceramic ware.

Porcelain

usually white in colour, very fine in texture and one of its characteristics is its translucency

Bisque

Unglazed ceramic
