

Year 1 Knowledge Organiser- Science – Seasons and the Weather

Key Vocabulary

Spring

Summer

Autumn

Winter

Hot

Cold

Cool

Snow

Cloud

Weather

Bloom

Deciduous

Evergreen

Rain

Humid

Temperature

Thermometer

This term we will be looking at seasons and the weather as our topic. This will mean looking at what weather each season brings and identify their different characteristics. We will be creating our very own weather forecasts too! We will also be testing materials to see if we can make the right choice of material for an umbrella.
