

Year 1 Knowledge Organiser- Science - Materials

Key Vocabulary
Material
Wood
Plastic
Metal
Glass
Properties: bendy, soft, hard, fragile, magnetic, non-magnetic, waterproof.
Transparent
Opaque
Translucent

This term we will be looking at materials and their properties and sorting materials into groups based on their properties.

Children will recognise and name a variety of widely used materials and will explain why materials are chosen for specific tasks based on their properties.

We will be testing materials to see which would be best to make an umbrella with.
